Indestructible Handle Hammers

- Ergonomic rubber grip handle absorbs shock and vibration reducing fatigue
- Indestructible handle is made with spring steel bars that run all the way through the handle. Bars are locked with the hammer head using steel locking plates, ensuring that the head never gets dislodged
- Hammer head is forged from special steel and is induction hardened to 52 to 56 HRC for extended life
- Special bonding process ensures that head never gets loose from the handle
- Working temperature range: 14° F to 122° F (-10° C to 50° C)

Indestructible Handle Technology

Steel Locking Plate
Eliminates head getting loose or falling apart

Hi Visibility Head
Adds instant identification on any job site

Tire Sealants

• Simply the finest tire sealant in the world. Our high-quality sealant not only seals tread area punctures but also rim and bead leaks, weather cracking and porosity leaks
• Seals hundreds of punctures up to 1/4" diameter
• Totally homogeneous—no mixing, shaking or stirring is necessary; it has an indefinite shelf life and can be rinsed out of a tire with water if there is a need for section or boot patching
• Remains fluid and effective in temperatures down to -45° F
• Lasts the life of the tire tread
• Easy installation is through the valve stem with the valve core removed and the tire deflated
• Installation kits are included
• Tire balance is not affected by sealant application
• Made in the USA

Chemicals

Powerful Corrosion Protection

- Superior lubrication for all moving parts
- Extend maintenance schedules, resulting in significant cost savings and integrity of equipment
- Soft, active coating penetrates to the base metal, where it migrates to create a formidable, protective barrier that prohibits corrosion on a molecular level
- Contains no solvents—will not evaporate
- Provides lasting lubrication and powerful protection for equipment in use, in storage and in transit
- Also protects equipment from atmospheric corrosion in storage facilities and metals exposed to animal waste
- Protects all metals, wiring systems and truck/machinery underbodies from the effects of harsh chemicals and toxic, dirty environments
- Not water soluble—resisting splash off from water, slush and mud during driving

8 oz. Brush Top Can
